Introduction

This is Version II of the Daniel Fast Cookbook. It's packed with more recipes and is a great companion for Version I. Both are designed to provide you with enough flavorful and enjoyable meals for your entire Daniel Fast experience.

I describe the Daniel Fast eating plan as a vegan diet with even more restrictions. It's a vegetable-based program with no sweeteners, chemicals, caffeine, alcohol or leavening products. The fasting guidelines are derived from two records of the Prophet Daniel's fasting experiences found in Daniel 1 and 10. I encourage you to read these chapters so you can understand more about Daniel and his purpose for fasting. Additionally, Jewish fasting and dietary principles are considered when developing this fast.

While these recipes are pleasing, it's important to keep in mind that you are fasting, not just changing your eating habits. The definition of fasting is to "restrict food for a spiritual purpose." So there are limitations. You might taste a food and find it "missing something." Well, it probably is missing the cheese or sugar flavors you are used to tasting.

Because so many prepared foods are laced with sugar and chemicals, you will find it necessary to prepare most of your meals "from scratch." For this very reason, I usually double the recipes and then use leftovers for lunches or other meals. These recipes will last several days in the refrigerator and several weeks in the freezer.

I do the same with salads. Just leave all dressings and seasonings off recipes that include lettuce or other fresh greens. Prepare everything in advance, and then toss with the dressing just before serving. That will keep everything fresh and crisp.

During the Daniel Fast, we have a choice about our attitude regarding meal preparation. We can either grumble about it and complain about the additional time. Or we can use this meal preparation time to memorize scripture, pray or share positive time with family members.

Finally, please keep an eye out for emails from me as I send new recipes to add to the collection. If you have favorite recipes, or modifications to any of these, please send them to me along with your name and your hometown and state. I will broadcast your recipe ideas to others who have this cookbook so we can all share in the bounty of what the Lord is showing us!

God bless you and thank you for your support as I take up this challenge to get the word out about the Daniel Fast and the supernatural value of prayer and fasting.

The Daniel Fast – A Whole Body Experience

The Daniel Fast brings health to every part of you! You are a spirit, you have a soul, and you live in a body. And the Daniel Fast is an excellent tool to bring increase and goodness to all of who you are!

There is a lot of confusion about the makeup of our beings. Yet once understood, one is amazed at the clarity in the Scriptures and the ease it brings to living!

Your **spirit** is the inner-most part of you. It is the God-centered essence where Christ abides. Jesus addressed the two parts of us in John3:5-7, Jesus answered, *"I tell you the truth, no one can enter the kingdom of God unless he is born of water and the Spirit. Flesh gives birth to flesh, but the Spirit gives birth to spirit. You should not be surprised at my saying, 'You must be born again.'"* Your mother didn't give birth to your spirit and your father didn't provide the sperm (seed) for your spirit. Only God can give birth to your spirit.

The **soul** (also called the flesh) is the non-material part of you that was born from your mother and of the seed from your father. Your soul is the seat of our conscience, emotions, intellect and will. Your soul cannot perceive truths from the Spirit of God. Your soul can be transformed to the degree that you renew your mind, change your attitudes, and conform to the Word of God. This should happen, and it's in the process of happening, but it didn't happen automatically when you accepted the truth of Christ into your life.

The **body** is easy to understand. You can see it! It is the physical place where our spirit and soul live.

The Daniel Fast is experienced by all three parts of us and brings health to those parts. As a spiritual exercise, we turn our attention to spiritual truths. In doing so, our spirits become stronger. In Matthew 4:3-4 we read about Jesus being tempted by Satan, *"The tempter came to him and said, 'If you are the Son of God, tell these stones to become bread.' Jesus answered, 'It is written: 'Man does not live on bread alone, but on every word that comes from the mouth of God.'"*

Our spirits are fed from the Word of God. So during the Daniel Fast, many will give extra food to their spirits by increasing the time and attention they give to God's Word.

Meanwhile, it is the soul that will bring up the fight during the Fast. You will experience this fight when you have to make a choice to push through the hunger pangs and the cravings. Or when you want to have "just one little bite of that bread," even though it's against the fasting guidelines . . . after-all, no one is looking!

The choice to push through and "quiet the soul" is your spirit taking precedence over your soul -- or another way of saying it is "living a spirit-led life." One of the primary benefits of the Fast

The Daniel Fast – A Whole Body Experience, continued

is that your soul gets "put in its place," which is under the control of your spirit. What controls your spirit? God and His Word!

Finally, the body. It will do some kicking and screaming, at first. The body will want the usual amount of food . . . and when it doesn't get it, it will send out hunger pangs to the brain (the soul receives those messages). When your body doesn't get the caffeine it has come so used to, it might send out an alert by way of a headache!

But soon, the body too will come into line and benefit from the goodness of the foods in the Daniel Fast. In fact, you might even get some rebellion from our body after the fast when you introduce foods that it's kind of liked doing without!

During the Fast your body will begin working more efficiently as it receives foods more easily digested, lots of refreshing water, and no artificial chemicals!

So the Daniel Fast is a whole-body-experience! It brings health and strength to the spirit, it brings health and control to the soul, and it brings health and good foods to the body!

The Daniel Fast is ALWAYS a Spiritual Fast

The copy below is from a blog I wrote on The Daniel Fast weblog at:

<http://DanielFast.wordpress.com>

I thought it made an important point so I am adding to the cookbook.

Okay, I might get some raised eyebrows on this post! But I'm just trying to bring some clarity about the Daniel Fast. And by the way, it's a Daniel FAST and not a Daniel DIET!

Why am I making such a distinction? The reality is that the Daniel Fast is much more than the types of food consumed. If you are looking for the Daniel Diet then click on the food list and call it a "twist" on a vegan diet.

Entering the Daniel Fast without a spiritual purpose is like going golfing without clubs. You may have had a great time walking around the course and even yelling, "Fore!" But the reality is that you really weren't golfing. You were doing something else . . . which is fine, but it wasn't golfing.

You see, the Daniel Fast originated with the prophet Daniel! And the reason Daniel fasted was because of his devotion to God. The devotion came before the dietary restrictions, not the other way around.

Daniel records three times when he fasted, but he most likely did so more often. The first fast was recorded in Daniel 1. The food and wine the king wanted Daniel to eat had been offered to idols. However, he had already consecrated (set apart) his life to God. If he ate or drank of these things, he would defile his body. So that's why Daniel requested that he eat only vegetables (which actually included fruit) and drink only water.

Chapter 9 has the second recorded time of Daniel fasting and when he was deeply distraught over the nation of Israel being in exile. Jeremiah had already prophesied that Israel would be set free after 70 years of captivity. The time had come and so Daniel prayed and fasted. This time, it was probably what is called a "normal fast," which is water only.

Chapter 10 has the third recorded time of Daniel fasting. He was concerned about a powerful dream he had received. The Scripture says he mourned for three weeks and ate no delicacies and no meat and drank no wine. This three week fast is the hub of the current day's form of fasting commonly known as the Daniel Fast.

You can see that in all three instances, Daniel fasted for spiritual reasons. Once to stay pure before the Lord and two times to seek the Lord's wisdom, direction and answers to prayer.

The Daniel Fast is ALWAYS a Spiritual Fast, cont.

Daniel didn't fast because he was overweight or needed a health tune-up. He fasted because of God in his life.

Now, please don't get me wrong. I am all for healthy eating and losing weight and even the wonderful health benefits of the Daniel Fast. But to call eating the way Daniel did a "fast" without a primary motivation to draw closer to God just isn't accurate. Biblical fasting was always about restricting food and always for the purpose of drawing closer to the Lord, observing spiritual laws, or seeking God in prayer.

So if you really want to use Daniel as the model, I hope you will do it all the way. Seeking and finding God is the most significant benefit of the Daniel Fast. Improving ones health is a great side benefit!

The Daniel Fast Food List

After answering hundreds of questions about the Daniel Fast, I am updating the food guidelines. My hope is that it will serve as a more complete list. The original list used by many people was issued in a book about fasting. I know the author tried to do the best he could, but that isn't the same as getting hundreds of questions seeking clarification. So here is the new list that I hope helps.

Please make sure to **READ THE LABEL** to discover the ingredients when purchasing packaged, canned or bottled foods. The ingredients should be **sweetener-free** and **chemical-free**. Keep this in mind as you review this list of acceptable foods.

Helpful hints for meal preparation

Soyynnaise – a mayonnaise made from soy beans and no eggs. This is a good ingredient for salad dressing and vegetable dip.

Tamari Sauce - Tamari is a variety of Japanese soy sauce that has a dark brown color, is slightly thicker than common, store-bought soy sauce and has a stronger flavor. Tamari is typically used to season foods while they are cooked like soups, stews and tamari almonds. Another variety of Japanese soy sauce called *shoyu* is more commonly used on the table (the way Westerners use salt) for adding seasoning to foods.

Japanese soy sauces typically include wheat as a primary ingredient, which tend to give their sauces a slightly sweeter flavor than Chinese soy sauces, although the tamari variety is almost always produced wheat-free, which is why tamari is popular among people eating wheat-free diets. Japanese soy sauces also tend to have a more alcoholic taste than Chinese soy sauces.

How to cook dried beans – Soak beans for at least 6 hours or overnight before cooking. Use 6 cups of water or other liquid for each pound of dried beans (about 2 cups). Rinse and drain beans and then follow recipe directions.

How to roast peppers - Place bell peppers on the grill at medium-low heat in order to roast them. If the grill is inconvenient, you can place them under the broiler in the oven. Set it on low if your oven has multiple broiler settings. We're looking for a black charring around the entire pepper with some bubbling on the skin. Rotate the peppers about every five minutes to evenly char the surface, about 15 minutes in total roasting time.

Place the hot roasted peppers in a covered bowl or in a sealed pepper bag to allow the peppers to steam. This will help loosen the charred skin. This step helps to increase the flavor in the pepper. When the peppers have fully cooks, rub off the charred skin and then us as directed in the recipe.

Plan and Prepare in Advance

One fact you will discover soon after starting the Daniel Fast is that most of the prepared foods you find in typical grocery stores include sweeteners or chemicals in their ingredients, making them unusable for the Daniel Fast. Consequently, you will find yourself needing to prepare many meals “from scratch.” In today’s busy times, meal preparation for the Daniel Fast can seem daunting. But there are some ways to make the time fruitful and some techniques that will help you speed the process.

Another benefit of this period of time is developing some new timesaving and food preparation habits. Plus, you might even develop some spiritual habits that will prosper your heart for years to come!

Plan Ahead: Use the Meal Planning Worksheet on the next page to plan the meals and snacks you’ll have for the coming week. Just select the recipes you want to use from this Daniel Fast Cookbook and others you might have along with fresh fruit and vegetables. Check to make sure you have all the ingredients and add those you need to your grocery shopping list. Penciling in your selections and menus will help you see what you need, imagine your meal preparation time and help you plan ahead for a “cooking day.”

Shopping: You will find that you totally avoid some departments in the grocery store, like the meat, bakery and dairy departments. Instead, you will concentrate your time in the produce area, the natural food department and on the canned food aisle.

Familiarize yourself with the foods available in the natural food department. I purchase vegetable broth that comes in boxes and vegetable bouillon in this area. But you can also find some good selections in the main sections of the grocery store now that organic and healthy food products are gaining popularity and demand.

Also, check out the fruits and vegetables available in the frozen food section. They tend to be more nutritious as they are flash-frozen soon after picking. Plus they are sometimes much less expensive!

Salad Preparation: For some unknown reason, I have an aversion to making salads. Obviously it’s a “head thing” that I will one day figure out! But still, for now, I’m not keen on making salads. But not eating salads doesn’t work very well on the Daniel Fast (or any time for that matter). So I developed some good habits and they have served me well. As soon as I get home from the grocery, I wash and trim all my vegetables and store them in air-tight or other appropriate containers. I slice the green onions, carrots and radishes. I tear the lettuce or wash it, wrap it in a clean dishtowel and store it in a plastic bag. The result is that I can make a lovely green salad in just minutes!

Snack Foods: I also make sure there are plenty of Daniel-Fast-friendly snack foods available. I especially like raw almonds, rice cakes and sliced vegetables with a simple dip. Sometimes these snack foods serve as my lunch!

Cooking Day: Here is where you will save hours of time as you prepare nutritious homemade meals for you and your family! Saturday is my “food prep day” during the Daniel Fast. I usually cook three or four different recipes and then either store them in the fridge or the freezer. This is also a good time to make flat breads and crackers.

Freezing: I discovered a great little trick for freezing soups and stews. I make the food and allow it to cool. Then I place a gallon-sized zip-lock bag in a four-cup measuring cup. Then I ladle the food into the bag. I seal it almost completely, but then carefully lay the bag on the countertop and gently press the air out of the bag. Then I lay the bags in the freezer and use them later during the fast. I also use quart-sized bags for 1 or 2 person servings.

Multi-tasking: Several years ago I started using meal preparation time to listen to Christian teaching CDs, memorize Scripture or pray. I especially like listening to teachings since even though I might be peeling carrots, I can still concentrate on what the pastor is teaching. I also listen to the teachings over and over again to get the truth of God’s Word deep into my spirit. This has made meal preparation time a wonderful blessing!

Breakfast Recipes

Muesli

Muesli is a combination of whole grains, dried fruit and nuts. It's nutritious and is a good way to start out the day! You can also make this in large batches, store in an air-tight container, and then consume over several days.

Ingredients:

- 1 1/3 cups rolled oats
- 1 1/3 cups water
- 1 tablespoon fresh lemon or orange juice
- 1/2 cup finely chopped prunes
- 1/2 cup finely chopped dried apples
- 1/4 cup currents or chopped raisins
- 2 tablespoons slivered or chopped almonds, toasted

Preparation:

1. Combine all the ingredients in a large bowl.
2. After well-mixed, cover muesli and refrigerate for eight hours or overnight.
3. Serve cold with unsweetened soy milk. You can also boil water and then add equal parts muesli, cooking for 3-5 minutes, stirring constantly over medium heat. Serve with unsweetened soy milk.

Yield: Four servings.

Italian Breakfast Scramble

If you have never tried tofu, this is a perfect recipe to introduce it to your taste buds. Tofu is high in protein. In this recipe, it has the consistency of eggs. And one of its most powerful attributes is that it picks up the flavors of the foods with which it is cooked.

Ingredients:

- 2 tbsp olive oil
- 1 yellow onion, coarsely chopped
- 1 green bell pepper, coarsely chopped
- 1 pound extra firm tofu, drained and diced into 1 inch cubes
- 1 teaspoon garlic powder
- 1 teaspoon onion powder
- 1 teaspoon dried parsley
- 2 tablespoons Italian herbs

Preparation:

1. Heat oil in large skillet over medium-high heat; add the onion, bell pepper and tofu, sauté for 3-5 minutes, stirring often and crumbling the tofu.
2. Reduce the heat to medium and add the remaining ingredients, stirring to blend. Cook, stirring frequently, for 5-7 more minutes, adding more oil if necessary. Tofu will “absorb” the flavors as it cooks with the other ingredients.
3. Transfer to warm platter to serve.

Yield: Four servings

Indian Tofu Scramble

The flavors in this high-protein breakfast are rich and appetizing. This recipe is quick to prepare and a nutritious start to the day!

Ingredients:

- 1 tablespoon olive oil
- 1 medium onion, chopped
- 2-3 cloves garlic, minced
- 2 cups button mushrooms, thinly sliced
- 1 pound extra firm tofu, drained and pressed and diced into 1 inch cubes
- 2 teaspoons cumin
- 1 teaspoon thyme, crushed with your fingers
- 1 teaspoon paprika
- ½ teaspoon turmeric
- 1 teaspoon salt
- 1 carrot, grated
- ½ lemon, juiced

Preparation:

1. Heat oil in large skillet over medium-high; add the onions and garlic sautéing for about 3 minutes, until softened.
2. Blend spices together in a small bowl before adding to skillet mixture. Add 1/4 cup water and deglaze the pan, scraping the bottom to get all the garlic and spices.
3. Add the tofu and mushrooms to the skillet and mix well. Don't crush the tofu, instead gently stir to coat with seasoned onions. Reduce heat to medium and cook for about 15 minutes, stirring occasionally and adding splashes of water if necessary to keep the tofu from sticking.
4. Sprinkle the grated carrot over the tofu mixture and gently blend with other ingredients. Cook for 1-2 minutes until carrot is just softened.
5. Add lime juice and serve on warm platter.

Yield: Four serving

Hot Breakfast Cereal

A bowl of hot cereal is a wonderful way to start the day! Since typical sweeteners are not allowed on the Daniel Fast, we are called to be creative to make the cereal a pleasant experience. Here are a few ways to serve hot oatmeal or whole wheat cereal.

Raisin and Spice: Add 2 tablespoons of raisins for each serving before adding cereal to boiling water when cooking. Sprinkle with cinnamon and serve with unsweetened soy milk. You can also use other dried fruit including apricots, dates, prunes or figs.

Fruit: Prepare hot cereal. Serve in individual bowls then top with 2 tablespoons sliced peaches, strawberries, bananas, applesauce or chopped apple.

Apple and Cinnamon: Prepare hot cereal as directed, adding $\frac{1}{4}$ chopped apples and $\frac{1}{2}$ teaspoon cinnamon per serving before cooking.

Fruit and Nuts: Add 2 tablespoons chopped dried fruit and 2 tablespoons chopped nuts to boiling water before adding cereal; cook as directed. Serve with cinnamon and unsweetened soy milk.

Hot Oatmeal and Dates

Since sweeteners including sugar, honey and molasses are not allowed on the Daniel Fast, using dried fruit to sweeten hot cereal is a good alternative. This recipe calls for dates, but you can also use raisins, apricots or other dried fruits (be sure to read the labels as some dried fruits are sweetened with sugar).

Ingredients:

- 4 cups water
- $\frac{1}{4}$ - $\frac{1}{2}$ teaspoon salt
- 2 cups rolled oats
- $\frac{1}{2}$ cup chopped dates

Preparation:

1. Bring water and salt to a boil.
2. Slowly stir in oats.
3. Reduce heat to medium and continue to cook uncovered for 8-10 minutes, stirring occasionally.
4. Remove from heat, cover and let stand 3-5 minutes. Serve in individual bowls and sprinkle dates evenly.

Yield: Four servings

Zoom Whole Wheat Cereal

Zoom is a whole wheat cereal packaged by the [Krusteaz](#) division of Continental Mills. It's a simple and quick to prepare cereal. Serve it with raisins and soy milk for an inviting breakfast.

Ingredients:

2 2/3 cups water
1 1/3 cups Zoom
1/2 teaspoon salt

Preparation:

1. Bring water to boil; add salt.
2. Stir in Zoom; reduce heat and continue to boil for 1 minute, stirring frequently.
3. Cover and remove from heat. Let stand 1 minute before serving.
4. Serve with unsweetened soy milk.

Yield: Four servings

Brown Rice, Sweet Apple and Coconut Oil

Renee Hastings, a member of the Daniel Fast Community, sent this recipe to me last year. I loved it the first time I tried it and now eat it even when I'm not on the Daniel Fast! I had never used coconut oil before and was surprised that it wasn't in liquid form. It does however melt quickly and add a pleasant flavor to this warm breakfast meal.

Ingredients:

- 2 cups cooked brown rice
- 1 ½ cup finely chopped sweet apple
- 1 tablespoon coconut oil, available in natural food section of grocery stores or in health food stores

Preparation:

1. Warm coconut oil in saucepan over medium heat.
2. Add the brown rice and apple, stirring to coat well with coconut oil.
3. Heat thoroughly and serve.

Yield: Four servings

Rice Cakes, Peanut Butter and Raisins

Here is your quick and easy “dash” breakfast or snack. The peanut butter is loaded with protein, serves as glue for the raisins and is tasty. This is also one of my favorite snacks during the Daniel Fast. You can also substitute the raisins for other dried fruit, nuts or chopped apples.

Ingredients:

- 8 rice cakes
- 8 tablespoons creamy or chunky peanut butter
- 8 tablespoons raisins

Preparation:

1. Spread peanut butter evenly on each rice cake.
2. Sprinkle with raisins and serve.

Yield: Four servings

Salads

Basic Garden Salad

Our bodies love salads! Yet in today's fast-food diet, they are not often eaten. During the Daniel Fast you will find yourself eating a lot more salads. Here is a basic recipe. I also like to prepare all my salad "fixins" once a week, as soon as I get home from the grocery store. I keep the chopped and diced vegetables in separate containers, stacked in the refrigerator. When I'm ready to prepare the salad, it takes only a minute or two from start to finish!

Ingredients:

- 1 large head leaf lettuce, torn into bite-sized pieces (reserve some leaves to line serving bowl)
- 2 cups diced carrots
- 2 cups cauliflower sprigs
- 1 cup chopped celery
- 1 large cucumber, seeded and sliced
- 3 cups chopped tomatoes, peel and seed before measuring
- ¼ cup chopped nuts, toasted

Preparation:

1. If you prefer, parboil the carrots, cauliflower and celery. Drain and cool before mixing with other ingredients.
2. Combine the lettuce, carrots, cauliflower, celery, cucumber and tomatoes in a large bowl.
3. Chill in lettuce-lined serving bowl until ready to dress with desired salad dressing and serve.

Yield: Four servings

Fresh Fruit Salad Plate

A fruit plate or platter is a welcome addition to any meal. It is also an enjoyed dessert! For best results, choose fruits that are in season. Cut them in attractive and easy to eat pieces and then serve along with nuts and dried fruit.

Ingredients:

Lettuce leaves
Apples
Oranges
Mango
Grapes
Dates
Raisins
Raw Almonds

Preparation:

1. Wash, core and trim apples, oranges and mango into bite-sized slices. Using kitchen scissors, cut grapes into small clumps of about 4 – 6 grapes each.
2. Arrange the fruit in a ring on serving platter lined with lettuce leaves.

Vegetable and Quinoa Salad Ring

The Daniel Fast is a perfect opportunity to introduce your family members to new foods. Quinoa is a nutritious grain with a sweet and nutty flavor. It's also a good ingredient as it is rich in protein.

Ingredients:

- 1 cup uncooked quinoa
- 1 tablespoon olive oil
- ½ cup chopped onion
- ½ cup ¼ inch diced green bell pepper
- 1 clove garlic, minced
- 1 cup thinly sliced zucchini
- 1 cup thinly sliced yellow squash (you may need to cut some of the slices in half)
- 1 cup chopped tomato, peel and seed before measuring
- ½ cup chopped celery
- ½ cup minced Italian parsley
- 1 tablespoon minced fresh marjoram
- ½ teaspoon ground black pepper
- ½ teaspoon salt
- 2 tablespoons lemon juice
- 2 tablespoons white wine vinegar
- Olive oil cooking spray

1. Prepare quinoa according to package directions, set aside.
2. Heat olive oil in large skillet over medium heat; add onion, green pepper and garlic. Sauté until just tender. Add zucchini, yellow squash and tomato; cook 3 minutes. Remove from heat.
3. Add cooked quinoa, celery and remaining ingredients, stirring gently to combine.
4. Spray six-cup ring mold with olive oil cooking spray. Spoon mixture into ring, packing lightly. Cover and chill for 8 or more hours.
5. Unmold salad on a serving platter and serve as a main course or side dish.

Yield: Eight to ten servings as a side dish; four servings as a main course.

Quinoa is growing in popularity as more men and women reduce their meat consumption and turn to healthy eating. The ancient South American grain has a sweet and nutty flavor and is light and fluffy in texture. When cooked, the tiny grains quadruple in size and become translucent. Quinoa is high in protein and may also be eaten as a hot cereal or interchanged with rice in soups, casseroles and pilafs. You can find quinoa in larger supermarkets (sometimes in the natural food section) or at health-food stores.

Tuscan White Bean Salad

- ¼ cup thinly sliced scallion greens
- 2 tablespoons shredded fresh basil
- 1 tablespoon chopped parsley
- 1/3 cup extra-virgin olive oil
- 3 tablespoons fresh lemon juice

1. Soak the dried beans in 6 cups cold water for 6 hours or overnight. Rinse and drain the beans.
2. Place the beans in a large saucepan and cover with 4 inches of fresh cold water. Cover and bring to a boil over high heat.

Toss gently to combine the ingredients being careful to keep beans intact. Cover and set aside for at least 1 hour at room temperature while flavors blend. *This recipe can be made 1 day in advance up to this point, covered and refrigerated.*
5. Transfer to a serving bowl or platter and surround with the tomato wedges. Serve at room temperature.

Salad Dressings

Vinaigrette

One of the frequently asked questions I receive on the Daniel Fast Blog is about salad dressings. We are so accustomed to using the fine and vast array of prepared dressings that we rarely make our own. But most prepared dressings include sugar and/or chemicals in the ingredients making them unusable for the Daniel Fast. So I've included many recipes here that you can make for your salads! Enjoy!

Ingredients:

- 1-2 teaspoons Dijon mustard
- 2 tablespoons fresh lemon juice
- 2 tablespoons wine, balsamic or cider vinegar
- 5 tablespoons extra virgin olive oil
- Salt and pepper to taste
- Minced garlic to taste (optional)

Preparation:

1. Mix mustard, lemon juice and vinegar by whisking in small bowl.
2. Whisk in each tablespoon of olive oil until thickened.
3. Add garlic (if using) and season to taste.
4. Chill for at least 30 minutes; whisk before serving.

Yield: four to six servings

Garlic Mustard Dressing

Make this recipe to your own liking for the amount of garlic you want! Six cloves is too much for me, but I have a friend who loves even more! Test the number of cloves to your taste.

Ingredients:

- ½ lemon, juiced
- 3-4 tablespoons Dijon mustard
- ¼ cup red wine vinegar
- 3-6 cloves garlic, minced (as desired)
- 1 ¼ cup extra virgin olive oil

Preparation:

1. Combine lemon juice, mustard and vinegar in blender mixing until well-blended.
2. Gradually add olive oil in a steady stream until all the oil is added.
3. Season to taste and blend again.

Yield: 1 ¾ cups

2. Drizzle dressing over salad and toss.

Soy and Lemon Dressing

This dressing has an Asian flavor to it, without the typical sweetness. Serve it with a mandarin orange salad or salad greens, green onions and snow peas.

Side Dishes

Sautéed Mustard Greens

I have to admit that we don't get a lot of mustard greens in our part of the continent (Pacific Northwest). But many Daniel Fast followers live in the South where mustard greens are common! Here is a recipe that I hope will serve you well!

Baked Onions with Balsamic Vinegar

Simple and tasty is the description for this recipe! Use sweet onions for best results! Hopefully you can find Walla Walla Sweets in your area. They are some of the best and grown in my home state of Washington!

Ingredients:

- 6 medium Vidalia or Walla Walla onions, peeled
- $\frac{1}{4}$ cup plus 1 tablespoon olive oil

- 2 tablespoons balsamic vinegar

2. Place each onion on a square of aluminum foil with the bottom up. Top each with a teaspoon of olive oil. Wrap foil tightly around onions bringing the top to a twisted point; place the onion packages in baking dish and bake for 40 minutes or until very tender when pierced.
3. While cooking, combine the mustard, vinegar, salt and pepper in a small bowl. Gradually add the remaining 3 tablespoons of olive oil, whisking in each addition until well blended and creamy.
4. Unwrap the onions and place them on serving platter. Spoon or drizzle the vinaigrette over each onion; season with salt and pepper.

Remove stem and seeds; slice into thin strips about 2 ½ inch long. Add the pepper strips to the bowl of beans.

Sweet and Sour Chick Peas

As a good source of fiber, chick peas (a.k.a. garbanzo beans) can help lower cholesterol and improve blood sugar levels. Sautéed okra with Roasted Red Peppers

Okra is another one of those southern favorites. I've included many recipes for okra over the next many pages . . . all passed on to me by great cooks with a southern flair!

I've been told that okra is a delight to eat. The vegetable serves as a good thickening agent in stews such as gumbo (gumbo is another name for the okra plant). Plus, the pods are delicious sautéed in oil. The texture differences between the cooking styles are amazing, however. In gumbo, the okra is soft and gooey with the sticky substance serving as the thickening agent. When sautéed, okra is crisp and tender.

In this dish, okra is coupled with some spicy jalapeno chilies and the sweet taste of roasted red peppers.

Ingredients:

- 2 red peppers, roasted, peeled and cut into 1/2" thin strips
- 1 tablespoon olive oil
- 1 pound fresh okra, trimmed (cut off small portion from both ends)
- 1 small jalapeno pepper, sliced into circles
- 1 French shallot
- 2 cloves garlic, minced

Preparation:

1. Heat olive oil in large skilled over medium heat; add shallots and jalapeno pepper and sauté until shallots are nicely browned.
2. Add okra, spreading it to a single layer. Continue to sauté, tossing the okra as it cooks and is brightened in color, about 4 minutes.
3. Add the red bell pepper strips and minced garlic. Sauté for another 2-3 minutes.

Yield: Four to six servings

Curried Okra

- 1/2 teaspoon dried hot red chilies
- 1/4 - 1/2 teaspoon mild curry powder, according to your preference
- 1/4 teaspoon ground turmeric
- salt and pepper for seasoning, to taste

Preparation:

1. Place the sliced okra into a glass or stainless steel bowl; sprinkle pods liberally with salt then cover the pods with the iced water, making sure that all the slices are under water.
2. Refrigerate the okra and water for 2 or more hours.
3. Remove the bowl from the refrigerator and drain off the salt water.
4. Heat the oil in a heavy skillet until it begins to shimmer; add the okra and fry until lightly brown, about 10 minutes. Be sure to turn okra to prevent sticking.
5. Add the remaining ingredients and sauté for 3 minutes more, until the onions are soft.
6. Serve hot as a vegetable side dish or the dish is great cold when wrapped with a chapatti.

Yield: Four to six servings

Veggie Burgers

Veggie burgers are available in the grocery store coolers, but I have yet to find one that doesn't include sweeteners or other ingredients that are not acceptable on the Daniel Fast. That's why I've included several recipes for veggie burgers that you can make during the fast. I encourage you to make large batches of these recipes and then freeze them for use during your fast.

Basic Bean Burgers

This bean burger recipe is rich in protein, derived from the TVP (Textured Vegetable Protein), which is made from soy flour. You can find TVP and TEASPOON (Textured Soy Protein) in health food stores. It must be reconstituted, usually using water. Follow package directions.

Ingredients:

- 1 cup TVP granules (this is a textured vegetable protein. It is a soy protein product that is available in most health food stores)
- 1 scant cup boiling water
- 1 tablespoon tomato paste or ketchup
- 1 16-oz can pinto, kidney, or other beans, drained
- ¼ cup crushed whole wheat crackers (crumbs from Matzo would be good)
- 2 cloves garlic, finely minced
- ½ teaspoon oregano
- 1 tablespoon tamari or soy sauce
- salt and pepper to taste
- whole wheat flour for dusting

Preparation:

1. Place TVP and tomato paste in a large bowl. Pour boiling water over the contents and stir; let rest for 10 minutes while TVP is reconstituted.
2. Using a food processor, combine TVP mixture and remaining ingredients except for flour. Pulse until mixture is almost a puree.
3. Dust hands with flour and shape mixture into 6 burgers. Dust them lightly in flour. Layer the burgers with sheets of waxed paper and refrigerate for at least one hour.
4. Cook on a grill covered with foil for about 10 minutes on each side or in a well-oiled skillet.

Yield: Six servings.

5. Drain cracked wheat in a strainer, removing as much as the liquid as possible.

Homemade Crackers Recipe

Making crackers is quick, easy and fun. They can be made with various seasonings and many different kinds of grain. Try cornmeal with chili powder, rye with caraway or dill seeds, or whole wheat with garlic powder. Experiment! If made from cornmeal, buckwheat or other non-gluten grains, they can safely be eaten by gluten-intolerant individuals. This recipe makes a semi-crisp, dense cracker.

Ingredients

- 1 ¼ cups whole wheat flour (rye, buckwheat or cornmeal can be substituted)
- ½ teaspoon salt
- 2 tablespoons butter, canola oil or olive oil; more as needed
- 4 tablespoons water; add more as needed
- 1 teaspoon seasoning such as chili powder, dried herbs etc (optional)

Preparation:

1. Preheat oven to 400° F.
2. Using a food processor, mix 1 cup of the flour, 1/2 teaspoon salt and oil.
3. Add 3 tablespoons water and mix well. Gradually add more water, mixing after each addition, until mixture forms a compact ball. If it seems too sticky to handle, add more flour.
4. Sprinkle your work surface (or a baking sheet-sized piece of parchment paper) with some of the remaining flour then press and roll the dough to about 1/8th inch thickness, trying to get it fairly uniform. If the dough is too dry to roll out, return it to the food processor and add a little more water. If necessary to prevent sticking, dust your hands and the rolling pin with a little more flour.
5. Place the rolled-out dough on a baking sheet dusted with a little flour or cornmeal (if you've used parchment paper, transfer dough and paper to baking sheet)
6. Bake for 10 - 15 minutes, until light brown.
7. Cool and break into pieces. If making several batches, mix another while the first one bakes. You can re-use the parchment paper several times.

Yield: About 1 pound of crackers

Homemade Corn Chips

Families from the Southwest especially miss corn chips during the Daniel Fast. Most found in the grocery stores are deep fried, making them off limits during the Daniel Fast. But here's a recipe for homemade corn chips that you can make and then bake!

Ingredients:

- 1 tablespoon oil
- ½ teaspoon salt
- ¾ cup boiling water (plus enough to make dough proper consistency)

Preparation:

1. Mix all ingredients in a large mixing bowl.
2. Scoop 1 heaping measuring teaspoonful of mixture and place on a well greased baking sheet. (Use plenty of oil, or they will stick)
3. Moisten fingers, pat out very thin or use the bottom of a glass (flour or moisten to keep from sticking).
4. Bake in 400 degree oven about 10 minutes.

Yield: About 1 pound of chips.

Most Excellent Vegetable Paella

Paella is of Spanish origin and is a mixture of many different ingredients into one dish. This recipe is made from vegetables and is full of color and flavor. I like the story of how paella may have gotten its name. When poor family and friends gathered together for a wedding, each person would bring an offering for the wedding feast. Some would bring a little fish, others some shrimp, and others would bring vegetables or rice. When they delivered the offering for the bride, they would say, “For the lady,” which in Spanish is said, “Por ella.” Eventually the dish’s name became “paella” as a derivative of the expression.

Ingredients:

- 4 tablespoons olive oil
- 1 large onion, chopped
- 2 cups long-grain brown rice
- 3 ³/₄ cups vegetable broth
- 1/8 teaspoon saffron, soaked in a little broth
- 4 cloves garlic, chopped (roasted and skinned is optional)
- 1 cup frozen green peas (thawed)
- 1 large red bell pepper, chopped
- 6 ounces white mushrooms, coarsely chopped
- 4 large tomatoes, peeled, seeded and chopped (can use canned or fresh)
- ½ pound artichoke hearts, halved (frozen or canned, but not marinated)
- ½ cup canned water chestnuts, sliced
- Salt and pepper to taste

Preparation:

1. Heat oil in large skillet; add onions and cook until translucent, about 10 minutes.
2. Add the rice and cook for a few minutes, stirring constantly (you want rice to get coated with oil)
3. Add stock slowly and simmer until each addition is absorbed, about 10 minutes.
4. Add saffron and garlic and continue to cook for about 10 minutes or until rice is tender.
5. Stir in remaining ingredients and continue to mix until everything is well-heated. Serve.

Black Bean Soup

Black beans are a staple in the Daniel Fast as they are so versatile. This black bean soup recipe can easily double so you can freeze a batch for a later meal. I like to add corn to this recipe or make it thicker for a sauce over rice.

Ingredients:

- 4 tablespoons olive oil
- 2 medium onions, chopped (about 2 ½ cups)
- 6 garlic cloves, pressed
- 1 14 1/2-ounce can vegetable broth
- 1 ½ cups canned diced tomatoes
- 2 tablespoons ketchup
- 2 teaspoons Worcestershire sauce
- 1 tablespoon chili powder
- 4 16-ounce cans black beans, drained but not rinsed
- salt and freshly ground black pepper
- 1 bunch cilantro
- juice of 1/2 lime
- thinly sliced scallions, for garnish

Preparation:

1. Put the bacon into a large heavy pot and place it over medium heat. Cook until it starts to give up its fat, about 4 minutes.
2. Stir in the onions and cook, stirring, until they start to turn translucent, about 4 minutes.
3. Stir in the garlic and cook until you can smell it, about 1 minute. Add the broth, tomatoes, ketchup, Worcestershire, and chili powder.
4. Stir in the beans, turn the heat to high and bring to a boil. Adjust the heat so the soup is bubbling gently and cook 10 minutes. Season with salt and pepper.
5. Meanwhile, pick off all the thick stems from the cilantro. Wash it and shake dry. Chop the cilantro coarsely and stir it into the soup when it has been simmering 10 minutes; cook until the soup is thickened, about 5 minutes.
6. Stir in the lime juice. Serve with the garnishes.

Yield: Eight to ten servings

- 1 teaspoon garlic powder
- 1 teaspoon onion powder

Preparation:

1. Combine all ingredients to large soup pan. Bring to boil. Cover, reduce heat and simmer for about one hour until flavors are full.

Easy Fresh Pesto Sauce

Pesto usually calls for nuts, which you can add to this recipe. I prefer this simple variety. You can make this in large batches, pour the sauce in ice cube tray and freeze. Once frozen, remove from the trays and store in the freezer in zip-lock bags. Use cubes as necessary.

Ingredients:

- 8-10 large cloves garlic, minced
- 4 cups fresh basil, chopped
- 4 tablespoons extra virgin olive oil

Preparation:

1. Mince garlic in food processor by pulsing until coarsely minced.
2. Add basil and pulse only enough times to coarsely chop.
3. Add olive oil, pulse again until slightly smooth sauce.

Yield: About ½ cup
